

ESSCA Contemporary European Politics. 2017.

Presentations

EU External Trade. 15/20

Emma Benaud, Soline Staub, Pauline Trolet, Sofia Orta and Inhye Yang

Good slides.

You have understood the economic and political problems.

Presentation too long – keep to the basics.

Missing – the Investor State Dispute Settlement process – examples available from Canada. See http://trade.ec.europa.eu/doclib/docs/2015/january/tradoc_153046.pdf

The conclusion is rather weak – what position should the EU take?

EU Enlargement. 13/20

Sylvain Charrier, Jonas Levy, Esthel Chomard, Tomas Eked, Chloe Bassilar and Tubanur Sen

Doesn't show the history of EU enlargement

Weak English

Turkey – too much text

Use maps to show where the countries are

Too much focus on the Brexit – and nothing on the Ukraine

Conclusion unconvincing

Immigration 16/20

Norman Fremont, Elise Poujouran, Vincent Humber, Nucci Luna and Sarah Augerau

Excellent photos and statistics

Turkish solution – needs more data

English – several errors

Good analysis of existing and future problems

Conclusion weak

Employment in the EU 16/20

Marine Allain, Julien Laur, Alexandra Sorin, Aylin Tunali and Yeorin Yoon

Missing names on title slide

Good introduction

Well researched

Good use of the New Deal for a Keynesian solution

Good solution of European New Deal – needs some data / statistics

Debt and Deficit 14/20

Marin Burel, Paul Dhonte, Yedam Kim, Rafael Monelibano and Clarizze Salandanan

Good video introduction

Why spend so long on the subprimes crisis? Simply explain it as the trigger of the European debt crisis.

Show the Maastricht criteria and explain more clearly the Stability Pact and why it was broken.

Good explanation of 'haircut' and Eurobonds

You miss the essential – show us the history of EU deficit and debt.

EU Defence 17/20

Gauthier Valot, Nicolas Maechler, Clement Lallemand, Ludovic Buridard and Elena Schrems

Good definitions and slides

Good map of EU intervention
Well researched
Good conclusion

The Euro 15/20

Armance Boulaie, Antoine Caillon, Laetitia Itol, Louis Pirmet and Alexandra Schiess

Clear introduction
Maastricht criteria – show the rules on the slide
Explain loss of exchange risk
Good analysis of pros and cons of the Euro
The conclusion needs more explanation

Climate Change in the EU 17/20

Aurore Cohade, Hadrien Quinot, Jospin Mbiakeu, Clement Renault and François Caillaud

Good introductory slides
Good explanation of the 2020 and 2030 Packages
Explain why different countries can have different objectives that don't always correspond to the EU targets.
NB – electricity is not necessarily 'green' – what is the source!
Well-designed slides
Good solution propositions
Need to deal with protecting our energy / products due to higher costs when negotiating Trade Deals like TTIP, CETA...
Could mention the Carbon Trading Scheme.
