

Contemporary european politics

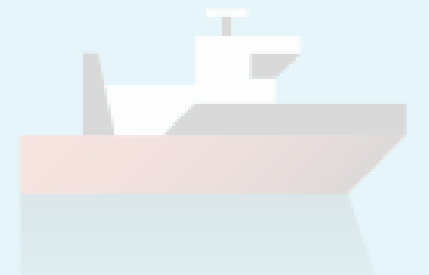

EU fishing Policy

Presentation by :

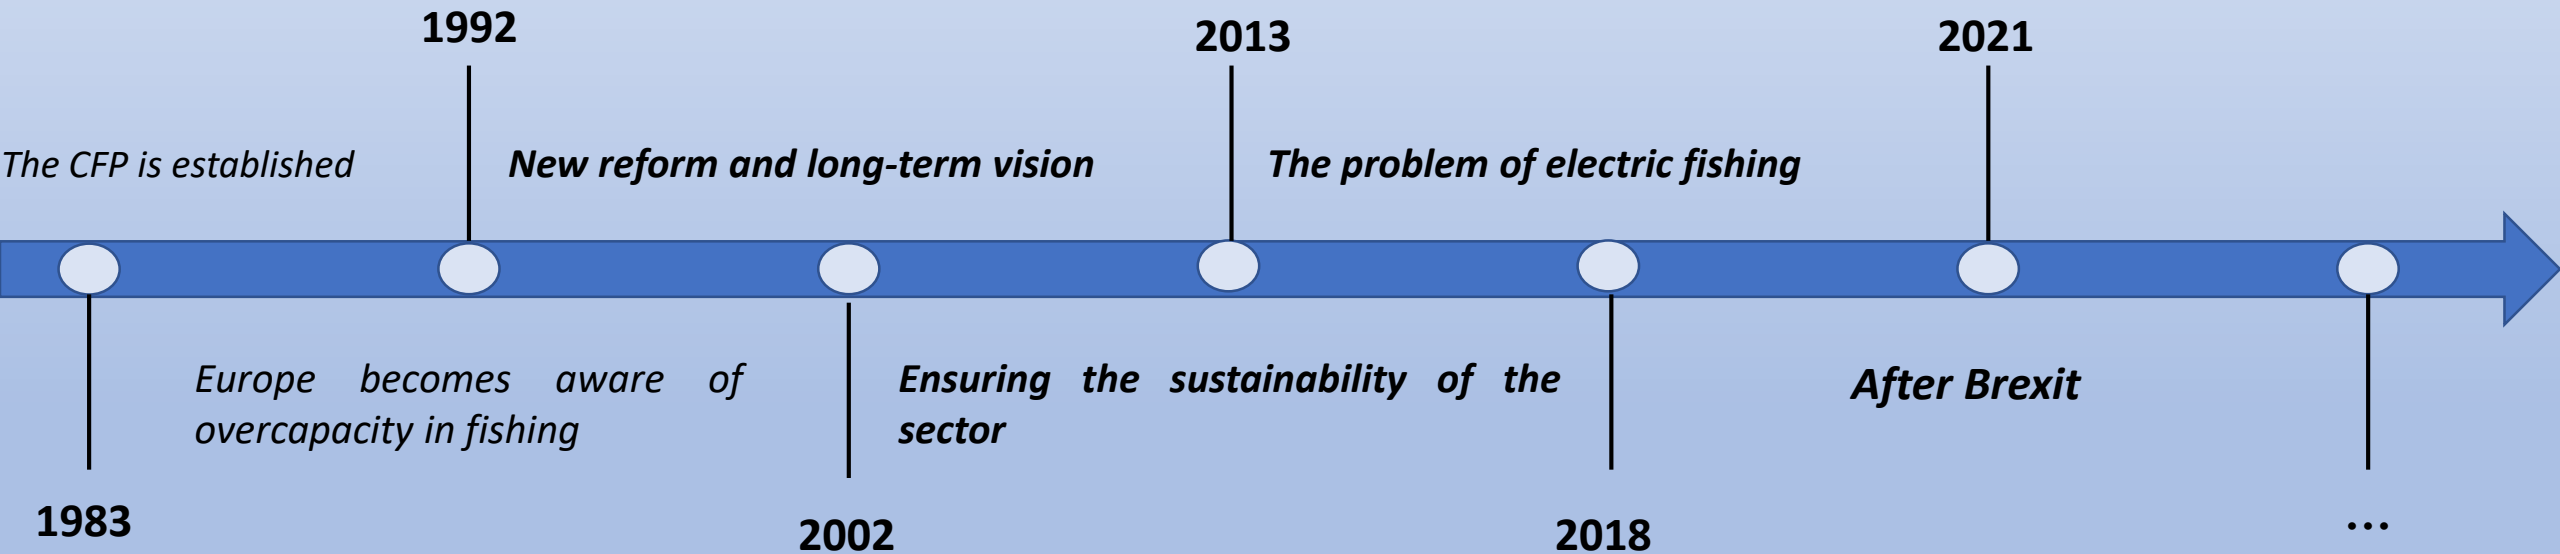

Hadrien MÜLLER

Joseph Armand NDONGMO NGOUANE

Théo GILLE

HISTORY OF FISHING POLICIES IN EUROPE

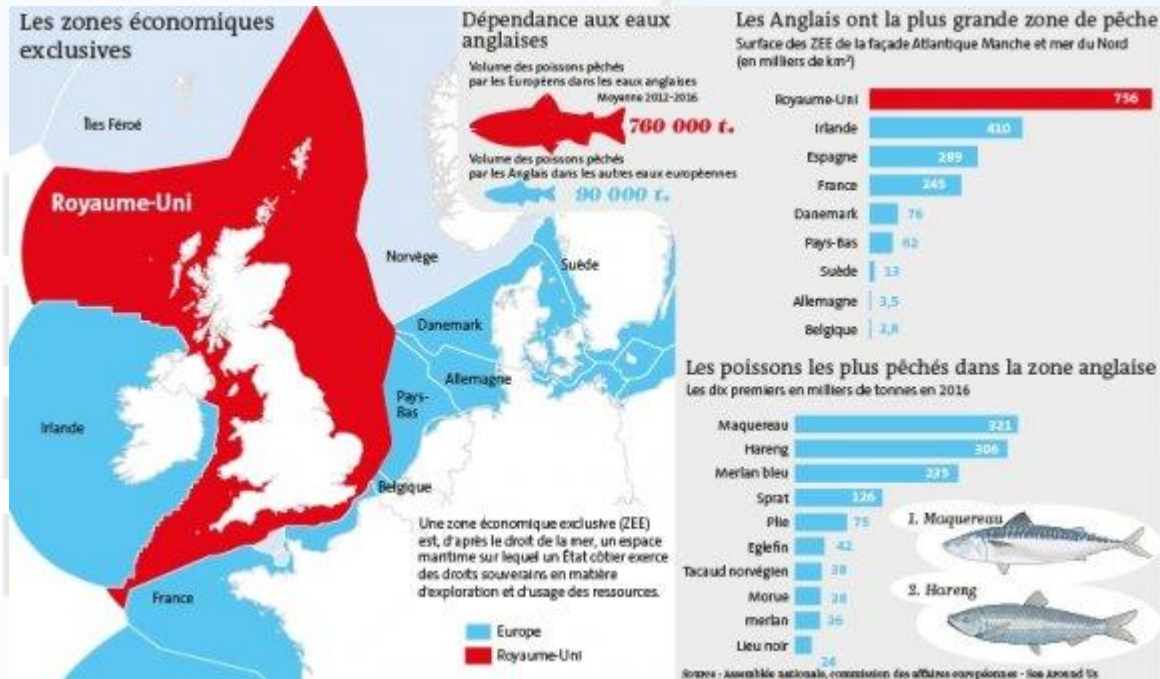

2-What are the main issues?

- The Brexit problematic
- The ecological impact

The Brexit problematic

The uneven but natural distribution of fisheries resources in the maritime areas affected by Brexit

French demonstrations in Jersey where two British military ships had to intervene

The ecological impact

Fish farms, a polluting and mostly disrespectful method of safeguarding farmed species

Selection of species during fishing and release of often injured species

Photo of a sea turtle trapped in a net

The background features a faint, stylized illustration of a person with their hand on their chin, suggesting a state of deep thought or uncertainty. A large, light blue question mark is positioned in the upper right corner, and a large, light yellow question mark is in the lower left corner. The overall color palette is soft and muted, with pastel tones.

3-Our solutions?

- The Brexit problematic
- The ecological impact

Post-Brexit Fishing : *Solutions ?*

Okay, we'll buy your fish,
but you'll have to pay
customs duties if you want
to export your fish to the
EEA countries !

- Royaume-Uni
- Zone dans l'UE
- Zone hors-UE
- Statut particulier des îles Jersey et Guernesey

Haute mer

France

Irlande

Belgique

Allemagne

Pays-Bas

Royaume-Uni

Danemark

How to solve the
issues of bycatch
and overfishing ?

Thank you for listening
!
