11%

OUR IDEAL ESSCALAND

Our overall Objective:

'To reduce the amount of CO₂ our citizens release into the atmosphere by coordinating people to use renewable energy sources'

- Direct taxation solution on ALL types of Fuels for Vehicles
- Progressive Taxation on Home Heating Fuels
- Incentives for people that buy electric cars
- Use alternative energy sources

SOURCES

RPI: Ave price - Heating oil, per 1000 litres - Office for National Statistics (ons.gov.uk)
