

**Zero long-term  
unemployed  
territories**

# What is a zero unemployment territory policy ?

Created by the law of February 29, 2016 and renewed by the law of December 14, 2020

## The 6 fundamental principles

- ★ Territorial exhaustiveness
- ★ Job quality
- ★ Non-selective hiring
- ★ The employment with chosen time
- ★ Employment-training
- ★ The net creation of jobs

# Let's see an example conducted by the association TZCLD

**No one is  
unemployable**

**There is no  
lack of work**

**There is no  
lack of money**

**Price of an unemployed person : 18,000€**

**Price of a job (minimum wage) : 20,000€**

# Can this system be truly possible and efficient in other regions or countries in Europe ?

Unemployment rate in the European zone :

Unemployment rate below 5%

Unemployment rate between 5 and 10%

Unemployment rate above 10%

**Could this system be developed  
in other EU countries ?**
