**WHAT IS THE
FUTURE OF SKI
RESORTS
CONCERNING
GLOBAL WARMING?**

Prepared by: Camille, Lorraine, Romy,
Valentine, Annie

History of French Ski Resorts

Introduction

The economy of ski resorts with global warming

- 1 Billion euros each years
- Represente 120,000 jobs
- Close the slopes below 2000 meters = extend the life of alpine skiing by 30 to 40 years
- Clusaz has increased its ski passes from 43€ to 47€ per day.

"Without artificial snow, no resort can function today".

**What do you think about
the future of ski resorts in
the era of global
warming?**
