

Matthieu Ballandonne

ESSCA School of Management

matthieu.ballandonne(at)essca.fr

Example : There are 3 students in your group . The professor gave you the grade of 15. Multiply your grade by the number of students : $3 \times 15 = 45$. You must share those 45 points between the members of the group . For instance , you give 20 to student 1, 20 to student 2, 5 to student 3.
