

Unemployment System - Essca Land

Our current situation:

- How do we avoid long term unemployment?
- What about youth unemployment?
- What about the lack of education?

Examples of France and Korea

- return to work allowance
- lost your job involuntarily
- be able to work
- actively seeking a job

- minimal living allowance
- lost your job involuntarily, not if fired for bad behaviour.
- system is the same for all, regardless of your former profession.

Our system

How to get an allowance:

- Register as a « work seeker » at the National Unemployment Agency.
- Prove that you can work a minimum average of 15 hours a week.
- Show a real will to work

Duration of the allowance:

- 5 days a week
- minimum of 300 days period and up to 400 days under some conditions.

Our system

→ Possibility to cumulate two different allowances:

Basic allowance:

- 40€ a day.
- No need to have worked for 18-25 years old.
- Avoids being without resources when you are young and just finished your studies.

Proportional allowance:

- **Subscribe an insurance.**
- **80% of the reference revenue for the first 200 days.**
- **70% of the reference revenue from day 201 to day 300.**
- **60% of the reference revenue from day 301 to day 400.**

Our system

- Long term unemployed (over a year unemployment) will be taken care of by local agencies in a personal way.
- Reduce taxes on low salaries (incentive to recruit for companies)
- Real cooperation between three main actors: the state, companies and agencies.

Thanks for listening
